CALL FOR ABSTRACTS

LINGUISTICS PRAGUE: EMPIRICALLY ORIENTED LINGUISTIC CONFERENCE FOR STUDENT- AND EARLY-CAREER RESEARCHERS

We are happy to announce that the 6th edition of the **Linguistics Prague** conference will be held from **June 4 to June 5, 2026**, at the Faculty of Arts of Charles University in the historical center of **Prague, Czech Republic**. The conference will take place in person.

The aim of the conference is to bring together **graduate students and early-career researchers** whose research addresses any topics relevant to linguistics and is **grounded in empirical methods**.

We invite contributions employing **quantitative and qualitative empirical research methods**, synchronic and diachronic perspectives, cross-linguistic research, corpus research, modelling, psycho- and neurolinguistic and cognitively oriented approaches as well as applied ones, concerning any language and register – spoken, written or sign.

We invite submissions for **oral presentations** (20 minutes talk + 10 minutes discussion) and **poster presentations** of original, unpublished data-oriented work. The presented work can be already finished, preregistered (i.e., preregistered reports) or still ongoing. Abstracts on such projects should present detailed information on the methodological aspects (sample, method applied), planned analysis, and theoretical relevance.

Since this conference is not limited to a particular topic or specific language, we also strongly encourage submissions dealing with linguistic phenomena from various languages.

We ask for the **submission of abstracts by 1 February 2026**, 23:59 anywhere on Earth.

Abstract guidelines are attached below.

We are looking forward to your contributions.
